

Secure Seal Tester

Pacorr's Secure Seal Tester is a critical testing instrument used to evaluate the seal integrity of bottles and containers, especially those filled with carbonated or pressurized liquids. The tester simulates real-world pressure conditions to identify any leakage or seal failure in caps, closures, and neck joints.

Specification

- Test Pressure Range: 0 to 175 psi (customizable)
- Pressure Display: Digital LED or gauge-based
- Sample Compatibility: PET, glass, HDPE bottles
- Clamp Type: Pneumatic or manual (based on model)
- Test Medium: Air or water
- Standards Compliance: ASTM C147-86, IS 12252, ISO 8115

Features

- Compact and corrosion-resistant stainless steel construction
- Digital pressure display with adjustable settings
- Easy clamping system for fast sample placement
- Suitable for PET, glass, HDPE, and aluminum bottles
- Supports standard and custom neck sizes
- Built-in safety valve and automatic pressure cut-off

Model- PCSSTF-1
