

## Notch Cutter-Motorized

### Product Info :

**Notch Cutter-Motorized** manufacturers and suppliers make sure that they are able to provide the best precision testing instruments for the plastic industries so that the quality of the products could be controlled in an effective manner. IN the plastic industries, different products are manufactured with different physical strength and composition according to the usage purpose and working environment. For products that have to bear heavy forces and impacts, it is important that the products have enough physical strength and endurance to ensure that the products will be able to survive the impacts and forces without any fracture, breakage or failure. If the products are not strong enough, they can easily fail during their usage and can cause safety threats in the working environments. To ensure that the products have enough strength to face such heavy forces, it is essential that they are tested for their strength and endurance.

There is a test called CHARPY and IZOD impact test which can be used for testing the strength of the products and materials used in the plastic industries and determine their behavior when they are subjected to high amplitude impact forces. In order to precisely perform the test, the specimen should be prepared accurately in accordance to the testing standards prescribed. The Notch Cutter-Motorized can be a very useful instrument in preparation of the specimen and hence ensure highest accuracy of the testing procedure. Pacorr is the most prominent Notch Cutter-Motorized manufacturers and suppliers that has been offering the most accurate testing instruments for the plastic industries and ensure best quality assurance of the products. This demands for through testing of strength of the products with great accuracy and precision.

## TECHNICAL DATA :

- Motorized Operation.
- Depth Micrometer: “Mitutoyo”-JapanMake.
- Range: 0-25mm
- L.C:0.01mm
- Cutting Angle: 45deg.
- Paint: PowderCoating
- Power: 230 V AC, 1 Phase, 60Hz.

## Our Valuable Customer

Pacorr Testing Instruments Pvt. Ltd.

11/15, Site-4 Industrial Area, Sahibabad, Ghaziabad- 201010 Contact No: +91-8882149230, Email Id: info@pacorr.com
