

# Fabric Swatch Cutting Machine

## Product Info :

**Fabric Swatch Cutting Machine** is a machine used in the textile industry to cut fabric samples into standardized swatches. These swatches are typically used for various purposes, such as quality control, product development, and sample presentations. Fabric Swatch Cutting Machines are available in different sizes and configurations, depending on the needs of the textile manufacturer. Some machines can cut multiple layers of fabric at once, while others are designed for cutting single layers of fabric. The cutting blades can also vary in size and shape, depending on the desired outcome.

Fabric Swatch Cutting Machines can be used to cut a variety of fabrics, including woven, knitted, and non-woven fabrics.

## TECHNICAL DATA :

- Double ended spanner : 01 Nos.
- Dust cover : 01 nos.
- Warranty certificate : 01 Nos.
- User's Manual : 01 Nos.
- Calibration Certificate (NABL) : 01 Nos.

**Dimension of the cutting pad : 300mm, 400mm, 500mm, 600mm**

- Frame constriction : Mild steel.
- Cutting depth : 0-12.5mm.
- Cutting width : 300mm, 400mm, 500mm, 600mm
- Graduated scale dimension from '0' position : 73cm left and 30cm right side.

### Standard Accessories:

- Main unit : 01 Nos.
- Cutting pad : 01 Nos.
- Allen key (6.0 mm) : 01 Nos.
